Westmorland Primary School

Statement about the processing of biometric data

This statement confirms that, at Westmorland Primary School, we do not store or process any form of biometric data.

Biometric data consists of personal information about an individual's physical or behavioural characteristics that can be used to identify that person, such as fingerprints, facial shape and retina and iris patterns.

The Governing Board and Data Protection Officer will review this statement on at least an annual basis. The next scheduled review date for this statement is Autumn 2026.

If the school does decide to store or process biometric data, a policy will be implemented for the processing of such data, which would be made available on the school website.

Any changes made to the school's position on the processing of biometric data will be clearly communicated to all staff, parents and pupils and added to our data privacy notices.

If you have any questions about this statement, please contact the Martin Henderson, Headteacher, headteacher@westmorland.stockport.sch.uk.
